Dear Mr. Hogan:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested does not clearly fall within the scope of PRN 98-10 and will require additional review of the related records. A summary of our findings include the following:

1. You must submit as a fast-track amendment as you are making changes to Box 2 of the CSF.

Please be advised that Pesticide Registration Notices are provided as guidance; they are not considered regulation by the EPA. Therefore, BPPD reserves the right to make the above determination, and the application has been converted to a non-Pesticide Registration Improvement Act ("fast-track") amendment in our records.
